Applicants' response filed March 25, 2003 has been received and entered.

Claim Rejections - 35 U.S.C. § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-20, 29 and 33 are again rejected under 35 U.S.C. 103(a) as being unpatentable over Chahwala et al. (D) in view of Foster (E) and further in view of Budavari et al. (R), all of record, for reasons of record as set forth in the Office action dated November 20, 2002 at pages 2 and 3 as applied to claims 1-20, 29 and 33.

Applicants' remarks regarding the Examiner's two cited references, Chahwala et al. and Foster, teach away from the invention of the present claims are not persuasive since the applicants have not demonstrated on record any unexpected results showing the combination of the two S(-) and R(+) enantiomers of amlodipine is superior over the racemate of amlodipine which contains both the enantiomers and isomers.

The rejection made under 35 U.S.C. 103 is adhered to.

In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
